representative samples of*

Flammable Liquid Hose Nozzle Valves

Model Descriptions: Interchangeable service-station type hose-nozzle valve, Cat. No. 21GE (automatic-closing type without latch-open device), suitable for use with gasoline and all ethanol/gasoline blends up to and including 85% ethanol..

Standard(s) for Safety:

Have been investigated by Underwriters Laboratories Inc.® in accordance with the Standard(s) indicated on this Certificate.

The basic standard used to investigate products in this category is ANSI/UL 842, "Valves for Flammable Fluids."

Products suitable for use with E85 (nominally 15% gasoline/85% ethanol) are additionally investigated to UL Subject 87A, "Outline of Investigation for Power-Operated Dispensing Devices for Gasoline/Ethanol Blends Other Than Gasohol (E10)."

Additional Information: **See UL On-line Certification Directory at www.ul.com for additional information.**

Only those products bearing the UL Listing Mark should be considered as being covered by UL's Listing and Follow-Up Service.

The UL Listing Mark generally includes the following elements: the symbol UL in a circle:  with the word "LISTED"; a control number (may be alphanumeric) assigned by UL; and the product category name (product identifier) as indicated in the appropriate UL Directory.

Look for the UL Listing Mark on the product
